Rui Su

has successfully completed the online Specialization

Exam Prep (SAP-C02): AWS Solutions Architect - Professional

Congratulations! By completing the Exam Prep (SAP-C02): AWS Solutions Architect - Professional Specialization, you have demonstrated your mastery in designing and orchestrating complex, secure, and highly available solutions on the AWS platform. This achievement validates your advanced expertise in architecting, deploying, and managing sophisticated cloud environments using a wide array of AWS services and best practices. Your skills cover crucial areas such as designing for high availability, cost optimization, security, and scalability across various services. By earning this course completion, you have positioned yourself as a highly skilled and capable AWS Solutions Architect Professional.

This certificate attests to the learner's completion of an online program delivered via Coursera. It does not constitute formal enrollment at any university or entity and does not itself grant academic credit, grades, or a degree. Institutions or organizations may, at their discretion, recognize this learning toward their own programs or credentials.
